Participation in the classroom:

- **Parents Participation:**
  - Parents and/or family members are strongly encouraged to participate in their child's classroom. Working in the classroom provides a unique and fun opportunity for both the parent and the student. The parents who choose to participate in the classroom (10% of the time) are only required to be on one additional committee. If a parent or family member is unable to participate in their child's classroom they have to participate on 2 committees throughout the school year. Please reference our Maintenance Selection Form for more information regarding committee options.
  - We will do our best to get you your top choice(s) for your working committee, however ultimately it will be determined by our Family Events Coordinator.

(All Executive Board and Executive Committee members are <u>exempt</u> from maintenance projects)
